- Go-to-market planning and execution
- Customer lifecycle and growth marketing
- Cross-functional leadership
- AI-enablement and agentic workflows
- Competitive analysis
- Communications and content strategy
- Messaging and positioning
- Analytics and optimization

EXPERIENCE

Unify Consulting Senior Consultant

2022 – Present

Drove go-to-market and communications strategy, change management, and cross-functional process improvement.

Product Marketing, Go-To-Market, Integrated Marketing Strategy, and Change Management at Microsoft (Modern Work, SMB)

- Led product marketing, messaging, communications, and field readiness motions across Microsoft Teams, Microsoft 365 Copilot, and AI-powered productivity solutions for executive, engineering, field, partner, and customer audiences
- Drove go-to-market strategy and execution for Teams capabilities, promotions, and adoption initiatives
- Developed competitive positioning, seller guidance, and field-facing assets that translated platform differentiation into actionable customer and sales narratives
- Built and applied AI-driven workflows to scale competitive intelligence, enabling proactive market monitoring, insight synthesis, and field readiness

Sia Partners Senior Consultant

2018 – 2021

Drove change management, communications strategy, and cross-functional process improvement.

Product Upgrade and Service Retirement Strategy at Microsoft (Modern Work)

- Led communications for complex program to upgrade tens of millions of Skype for Business customers to Microsoft Teams as part of the Skype for Business Online service retirement
- Built strong relationships across Leadership, Engineering, and Sales and Support stakeholders to facilitate direct, in-product, field-led, and self-serve channel enablement
- Authored program updates for internal partners and leadership

Change Management and Communications Strategy at Microsoft (CSS)

- Led communications and program delivery supporting the rollout of Microsoft's suite of enterprise service tools
- Authored communications for Executive, Engineering, Field, and Partner audiences
- Drove development of the Tools and Technology SharePoint strategy for more effective integrated marketing

Process Improvements Strategy at Octave Group

- Analyzed cross-functional processes and operations uncovering opportunities to improve organizational alignment, solution delivery, and customer support
- Paired data analysis with organizational interviews to identify root issues, performance blockers, and actionable recommendations for product development, customer engagement, and internal communications

AOL (Acquired by Verizon Communications) Senior Marketing Manager, Digital

2015 – 2017

Led content and experience strategy for AOL's advertising and corporate websites to support global integrated marketing and go-to-market motions.

Digital Strategy and Web Development

- Scaled AOL Advertising sites across six global markets
- Created strategy, personas, and information architecture as part of AOL's Corporate site redesign
- Built web experiences to support AOL at CES, Advertising Week, and Digital Content NewFronts
- Originated and managed dozens of projects while leading cross-functional teams of developers and marketers

Site Management

- Authored, published, and audited hundreds of blog posts, product pages, and campaign landing pages supporting AOL's advertising tech solutions, audience research, and corporate culture and philanthropies
- Trained global marketing teams to use CMS platforms

Marketing Analytics

- Created performance dashboards for AOL's corporate and advertising technology sites
- Used engagement metrics to inform content strategy relative to formats, frequency, and promotions

Microsoft

Senior Marketing Consultant – Microsoft Advertising

2009 – 2015

Strategized, developed, and optimized connected experiences across email, web, and social channels to drive awareness and engagement with Microsoft's top advertisers and agencies.

Integrated Marketing

- Managed email marketing promoting Microsoft's advertising solutions to 10K+ advertising and media pros
- Drove web activation of product launches (Windows 8, Skype, Xbox One), research (Consumer Decision Journey, Social Media Advertising), and events (Advertising Week, Cannes Lions, Digital Content NewFronts)
- Created blog posts, landing pages, email campaigns, and sales support assets to drive customer engagement
- Championed testing and optimization for improved marketing performance along the customer journey

Web Development and Site Management

- Directed content and experiences on the Microsoft Advertising site to support go-to-market motions, from product pages and campaign landing pages to interactive galleries and microsites

Content Strategy

- Created print ads, landing pages, one-sheets, case studies, emails, and sales enablement materials
- Wrote creative briefs and copy, and provided art direction internal and external-facing marketing assets
- Maximized content value through scaled distribution across digital channels and global localization

Marketing Analytics and Segmentation

- Drove reporting and analysis of marketing programs and audience segmentation
- Created dashboards for email, video, and site merchandising programs to help optimize performance
- Performed analyses that showed 30% higher ad spend for accounts who engaged with our email marketing

Agency and Vendor Management

- Managed creative agency on production of landing pages, promotional emails, one-sheets, and print ads
- Managed email vendor responsible for campaign deployment through ExactTarget
- Directed internal creative teams to produce sales decks, case studies, and newsletter templates
- Oversaw workflow and budgets, and counseled on brand guidelines

Microsoft

Senior Marketing Consultant – Mobile and Central Marketing Groups

2008 – 2009

Advised marketing leadership on mobile web optimization and reseller channel engagement.

Channel Communications

- Created field communications tools and guidelines for Microsoft's Mobile Communications Group
- Conducted stakeholder interviews and analyzed program performance to address field marketing needs
- Wrote content and managed design of field enablement newsletters
- Managed channel marketing calendar to drive reseller program awareness and usage

Mobile Optimization Strategy

- Developed business case for mobile-optimized sites for Microsoft.com and Microsoft Store
- Conducted stakeholder interviews, analyzed channel metrics, and performed extensive competitive research to identify opportunities for increased revenue and customer satisfaction

Washington Mutual (Now JPMorgan Chase)

Product Manager, E-commerce Strategy

2006 – 2008

Managed the customer experience and performance of WaMu's industry-leading online account application.

Customer Acquisition and Revenue Generation

- Developed customer referral program that led to acquisition costs 50% lower than WaMu's average
- Scoped and launched marketing optimization that improved acquisition rates by 20% through A/B testing

Website and Program Development

- Authored business requirements and collaborated with product managers and business analysts on functional specifications for offline and offline programs
- Managed development of a lead management app that increased new account volume by 15%

Business Case Modeling

- Developed strategic rationale and estimated ROI for proposed marketing programs and product features
- Pitched opportunities to leadership and finance teams to justify resource allocation and prioritization

Whitepages

Senior Product Marketing Manager

2003 – 2006

Led end-to-end marketing for Whitepages' suite of SMB products, from customer segmentation and go-to-market strategy, to creating and deploying acquisition and retention programs.

Business Management

- Co-managed operations of Whitepages' SMB division in 2004, reporting to the CEO
- Created integrated marketing plan that grew SMB division revenue over 350% in 2004 and 75% in 2005
- Owned six-figure media budget
- Managed Whitepages' MBA intern

Customer Segmentation

- Led SMB audience research, behavioral segmentation, and customer life cycle analyses to drive channel, communications, and customer engagement strategy and program design
- Used segment size, speed-to-close, value, and competition density for audience and acquisition prioritization

Product Planning, Positioning, and Analysis

- Developed brand guidelines, value propositions, and messaging frameworks
- Championed expansion of product mix by forecasting increases to average conversion rate, purchase amount, and repeat usage, elements that enabled the scaling of acquisition programs
- Led pricing strategy, conversion analyses, and build-vs-buy decisions on new data sets

Product Launch Marketing

- Launched Whitepages' list generation, data appending, and API products
- Created launch bill of materials including positioning frameworks, sales and support training, web content, collateral development, and promotional campaigns

Web Development and Search Engine Marketing

- Managed site launches, directing the user experience, design, and copy
- Led project teams with representatives from product, support, creative, and tech
- Built and continuously optimized Google AdWords and Yahoo! Search Marketing campaigns, testing creative and landing pages, expanding long-tail list, and managing to target cost per acquisition

Dashboard Development and Analysis

- Managed customer metrics including conversion rates, product usage, and lifetime value
- Leveraged data modeling to identify levers for revenue and customer growth
